October 2004 – December 31, 2005

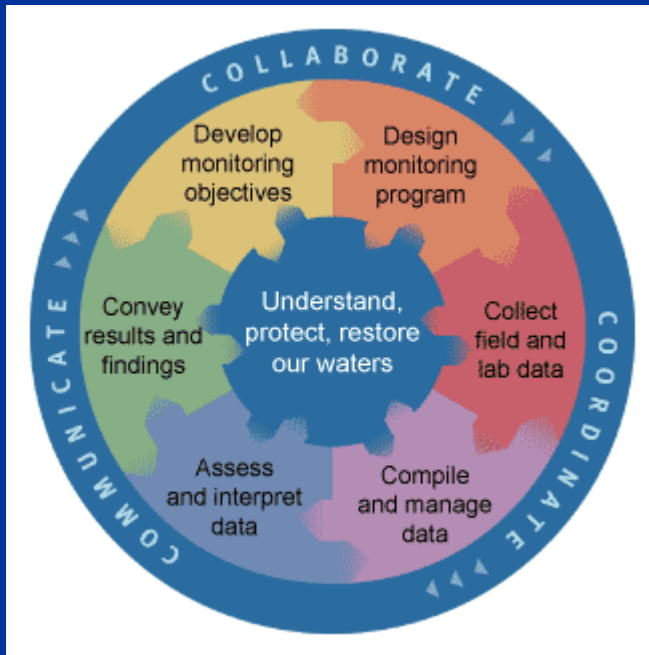

## Subcommittee Work Groups

# National Water Quality Monitoring Council

---

**Provide a national forum for coordination of consistent and scientifically defensible methods and strategies to improve water quality monitoring, assessment and reporting. Promote partnerships to foster collaboration, advance the science, and improve management within all elements of the water quality monitoring community**

## National Water Quality Monitoring Network

**Network Steering Committee**

**Network Design**

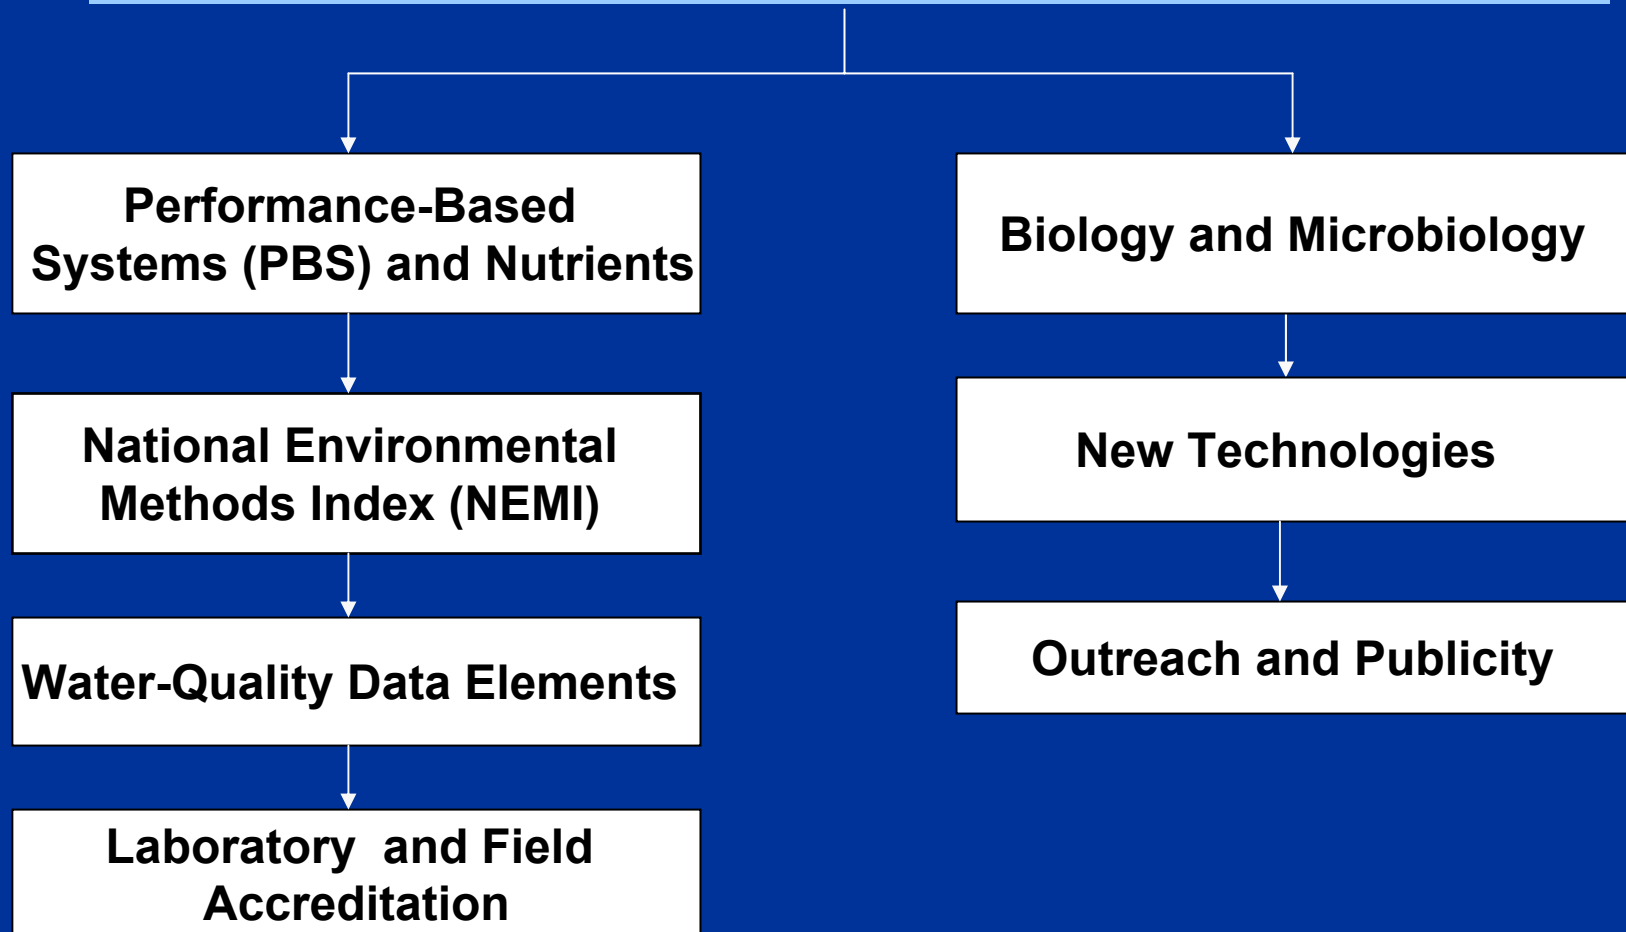

**Monitoring Inventory**

**Methods and Comparability**

**Data Access**

## **Methods and Data Comparability Board Work Groups**

# Methods and Data Comparability Board

---

The NWQMC Methods and Data Comparability Board provides a forum for exploring, evaluating, and promoting methods that facilitate collaboration and further comparability between water monitoring programs.

# NAWQA, National Liaison Committee

---

**The National Liaison Committee (NLC) for the National Water Quality Assessment Program (NAWQA) creates an ongoing national liaison process for external organizations to work interactively with the NAWQA Program in joint problem solving on water quality issue**

# Subcommittee on Hydrology

---

**The Subcommittee on Hydrology desires to improve the availability and reliability of surface-water quantity information needed for hazard mitigation, water supply and demand management, and environmental protection.**

# Subcommittee on Sedimentation

---

**The Subcommittee promotes and supports development and standardization of equipment, methodologies, and calibration and performance criteria for the collection, analysis, interpretation, and interchange of fluvial-sediment data and related technical information.**

# Subcommittee on Spatial Water Data

---

The Subcommittee jointly sponsored with the **Federal Geographic Data Committee** develops water-resources components of the National Spatial Data Infrastructure.

# Sustainable Water Resources Roundtable

---

**Serves as a forum to share information and perspectives that will promote better decision making regarding the sustainable development of our Nation's water resources.**
